

FINALLY... ART YOU CAN RUB ONE OUT TO

Boots Bryant is an up and coming Los Angeles based photographer with a focus on artistic nudes and fetish photography. His work has been showcased in BEAR Magazine, Unzipped and Freshmen. In the winter of 2010 he released his first wall calendar entitled **MENOLOGY 2011**, which showcases a wide range of body types to prove 'sexy comes in a lot of shapes and sizes.'

"Because its free of any Santa Hats, crucifixes and spinning drediels, Menology 2011 makes the perfect gift for any occasion." - LA WEEKLY

In addition to the Menology 2011 calendar, Bryant's prints in tonight's fundraiser are of Joel Evan and were featured by Unzipped Magazine.

"The Joel Evan session took place at world renowned fetish photographer Rick Castro's Antebellum Gallery during the Kinky Camera Club during summer 2008. These first run prints have not been duplicated and will make for great collector's items. I've come a long way since these were taken but still think they are some of the sexiest images I've captured over the years. Thank you for considering them." - BOOTS BRYANT
